## EXPERIENCE

### ENVIRONMENTAL SPECIALIST

GZA GeoEnvironmental / 2014 - Present

Supported clients with Greenhouse Gas emissions tracking and reporting, sustainable supply chain program development and ensuring compliance with federal and state regulatory programs.

- Developed and conducted supplier training and outreach strategy to improve the quality of responses to clients' CDP Supply Chain Program.
- Assisted in development of internal supplier best practice program, including identifying sustainability projects and designing tracking tool.
- Continually researched GHG and corporate sustainability policies and trends to ensure clients are informed leaders in their industries.

### ENVIRONMENTAL HEALTH AND SAFETY INTERN

Masco Cabinetry / 2013 - 2014

Developed business skills such as data analysis, effective communication and time management while promoting safety and wellness throughout the organization.

- Collected and analyzed sustainability and safety metrics for KPI report to ensure all divisions were on track to meet corporate goals.
- Redesigned EHS SharePoint to allow for better access to important environmental health and safety documents.
- Prepared monthly presentation for monthly safety meetings to communicate health and safety news to entire corporation.

### MARKETING INTERN

ESI Group / 2011 - 2013

Collaborate with marketing and sales teams of all stages of marketing campaigns to develop, expand and maintain marketing channels.

- Generated over \$300k in opportunities via phone, email and online marketing campaigns for training opportunities.
- Crafted marketing documents to increase interest in product.
- Introduced process improvements that enhanced productivity, including Salesforce procedures.
